Art Unit: 1774

This application contains claims directed to patentably distinct species of compounds and devices comprising such compounds wherein the patentably distinct species of compounds are as follows:

(I) a compound represented by formula L_2ML' wherein L and L' are not identical to each other; or

(II) a compound represented by formula L_2ML' wherein L and L' are identical, and a compound represented by formula L_3M ;

wherein for (I), L is a ligand provided by a compound represented by one of formulae 1 to 15 as shown, for example, in claim 6, and L' is a ligand different from L but also provided by a compound represented by one of formulae 1 to 15;

and wherein for (II), L/L' is a ligand provided by a compound represented by one of formulae 1 to 14 as shown, for example, in claim 14;

and further wherein for (I) or (II), M is one of Ir, Pt, Zn or Os.

The species are independent or distinct because the compounds having different combinations of L/L' and M do not overlap in scope, i.e., are mutually exclusive.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. That is, applicant is required to elect one of (I) or (II), elect two of formulae 1 to 15 if (I) is elected, elect one of formulae 1 to 14 if (II) is elected, and elect one of Ir, Pt, Zn or Os for M. Currently, claims 1-4, 8-11 and 22 are generic. (Compound claims and device claims will be examined together, subject to this election of species requirement.)

Art Unit: 1774

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

A telephone call was made to Michael Stein on July 20, 2006 to request an oral election to the above election of species requirement, but did not result in an election being made. Mr. Stein requested that the requirement be written.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
